## 早期療育理論與實務試題

適用學系:幼兒教育學系早期療育碩士班

Please translate the following paragraph into Chinese:

- 一、 Numerous problems remain in the development of appropriate and meaningful eligibility criteria. Although the numbers of infants and toddlers with disabilities who have been identified and served in the various intervention systems created by the government has been highly variable, systematic efforts have been put in place to find eligible children and families and to establish appropriate services. (20%)
- 二、 The major question facing the field of early childhood intervention is not whether young children are worthy of public investment. The critical challenge is how to capitalize on current knowledge and mobilize our collective resources to ensure better health and developmental outcomes. (20%)
- 三、 一位 5 歲腦性麻痺兒童口腔功能差，經常流口水，請問可能有那些的治療方法你可以分析（請說明之）？最後再做適當的選擇。(30%)
- 四、 何謂到宅服務？請說明目前到宅服務的優勢與服務實施之困難。(30%)
