根據教育部上週發佈的統計，97 學年全台灣的大學、學院和專科學校總共可以招收 35 萬人，但是只有約 29 萬名新生註冊並且就學，也就是說平均新生註冊率約為 83%，這是近五年來最低的新生註冊率。

二、英翻中（25%）

Western civilization has been greatly influenced by the cultures of ancient Greece and Rome. For this reason, children have grown up with tales from these cultures. *The Trojan War*, *The Travels of Odysseus*, and *Pandora's Box* are tales that are well-known and read by children. The importance of these tales is that they do not merely offer entertainment to children, but also give instruction to them in the realm of social, cultural, and personal values. Inspired by these tales, individual children learn how to become what their society or culture expects them to be.
